**Dear \_\_\_\_\_,**

I am writing to express my strong interest in securing a teaching position in early childhood or elementary education. I am currently *completing coursework through the Alternate Route to Teaching program while holding my provisional license—CE in Early Childhood Education (P–3)*, and I am eager to continue growing within the field of education while contributing to a school community dedicated to student success.

My passion for teaching is rooted in over eight years of experience in early childhood education, both in India and in New Jersey. As a Lead Teacher and Assistant Teacher at the Raritan Valley Community College Childcare Center, I created nurturing, developmentally appropriate learning environments that promoted curiosity, independence, and social-emotional growth. My work involved designing play-based lessons, supporting individualized learning needs, collaborating with families, and fostering positive classroom communities. These experiences strengthened my commitment to helping young learners feel valued, confident, and excited about learning.

In addition to my educational background, I bring meaningful experience from healthcare, including earning my Phlebotomy Certification from Raritan Valley Community College and completing my externship at Hunterdon Medical Center. My time as a Certified Nurse Aide further enhanced my patience, empathy, attention to detail, and ability to support the whole child—skills that transfer directly into the classroom, especially when working with diverse learners and families.

With my CE in Early Childhood Education, I hope to teach in a preschool through Grade 3 classroom within a public school district in New Jersey, where I can combine my experience, compassion, and commitment to developmentally appropriate practice. I am seeking a position that allows me to contribute to a collaborative teaching community and support students' academic, social, and emotional growth.

Thank you for considering my application. I would welcome the opportunity to discuss how my background in teaching and learning, along with my passion for education, aligns with the needs of your school.

**Warm regards,**  
Seema Goel
